Art Unit: 2859

Examiner' Statement of reasons for Allowance

1. Claims 1-7 are allowed because the prior art of record fails to teach or suggest an arrangement and a method for measuring the temperature of an object or environment with a photoluminescent probe wherein; the ratio I_T P₁/ I₁ P_T varies in a known manner with varying temperature independently of any temperature-dependent changes in the luminescence, in combination with the remaining limitations of claims 1-7.

- 2. Claims 8-14 are allowed because the prior art of record fails to teach or suggest an arrangement for measuring the temperature of an object or environment with a probe wherein; the ratio $I_T P_1 / I_1 P_T$ varies in a known manner with increasing temperature, in combination with the remaining limitations of claims 8-14.
- 2. Claims 15-16 are allowed because the prior art of record fails to teach or suggest a method for measuring the temperature with a photoluminescent probe wherein; the ratio $I_T P_1 / I_1 P_T$ varies substantially in a known manner with varying temperature, in combination with the remaining limitations of claims 15-16.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
